

*From the StarPhoenix June 23, 2011 - Letter to the Editor*

Despite the fact that there are currently several would-be galvanizing issues affecting the general public of Saskatoon, the lack of awareness or interest is alarming.

First, bravo to all of you who do take an interest in our city's environment and health. Second, I must apologize on behalf of my apathetic contemporaries.

My generation Y is left to deal with a legacy of debt and environmental degradation, and en masse, we are certainly not prepared to do so. The time has come to put down our drinks, pull up our pants and get involved.
